

Computing the are of rectangle

Step 1. Start
Step 2. Initialize length=0, width=0, product=0, area=0
Step 3. Input length, width
Step 4. Compute the area of rectangle:
product=(length)(width)
area=product
Step 5. If the area>20, then print " The area of rectangle is greater than 20. " otherwise, if average <50, then print " The area of rectangle is less than 20. "
Step 6. End
